## Development and Studies

**“Earl Sutherland, USA receive the 1971 Nobel Prize for his discoveries concerning the mechanism of the action of hormones. He showed that the signal used to communicate between cells (the 1st. messenger) is converted to a signal inside the cell (the 2nd. Messenger).**

**This signal occurs in the cell membrane. 1994 Nobel Prize winners Alfred Gilmand & Martin Rodbell discovered how they work.**

## Development and Studies

**ATP's (adenosine triphosphates) are energy-carrying molecules found in the cells of all living things.**

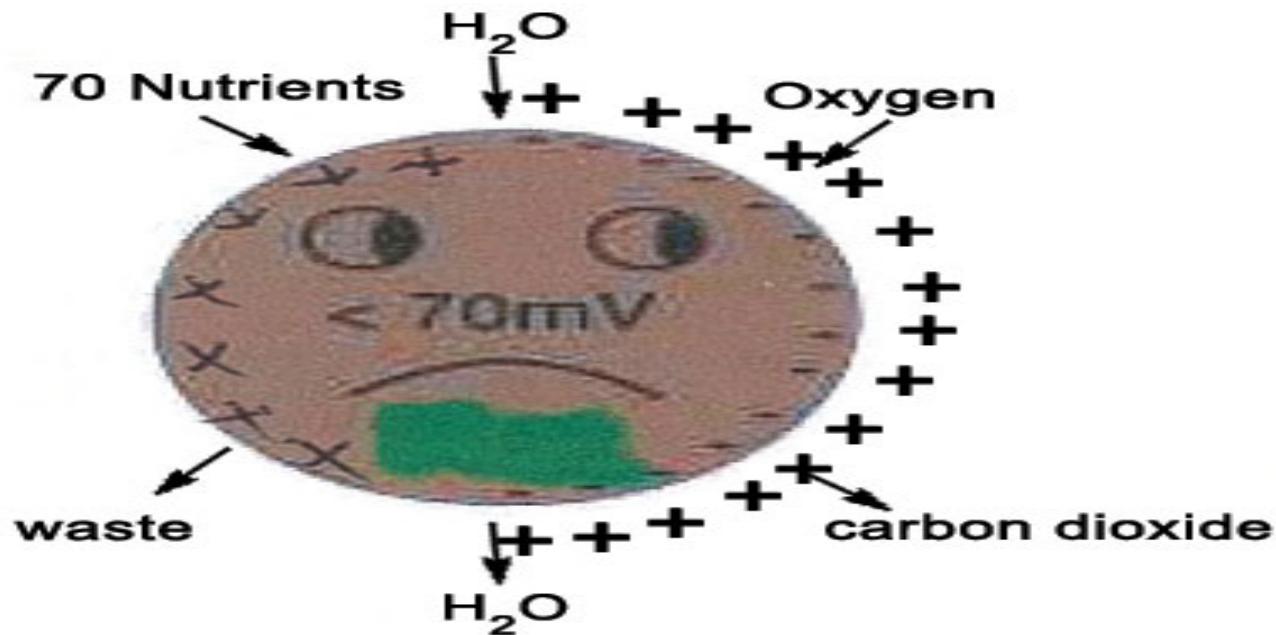

**ATP transports chemical energy within cells for your metabolism.**

**It is an energy source that your body needs not only to survive, but to thrive!**

# Why Positive Potential can be harmful?

- Nutrients, Oxygen and H<sub>2</sub>O can not get in.
- Waste, Carbon Dioxide can not get out.
- Inside cell gets too much sodium+ / hydrogen+

## Electric Potential in the Human Body

**24,000,000,000+**

**There are 30-40 micro-voltages in EACH cell membrane in your body. Since there are approximately SIX TRILLION (6,000,000,000) cells in the whole body, the total electric potential is a very considerable number.**

**HTE AMERICA**

# Electrical Potential of the cell Membrane

**Children**  
(approx. 70-90  
millivolts)

**Sick & Tired**

millivolts)

**Senior Citizens**  
(When the cells die zero  
millivolts, Full blown cancer &  
disease equals 15 millivolts.)

improves the  
functions of the  
body's 8 main (Body)  
Systems. It can be  
used by everyone in  
the family over 1 year  
of age.

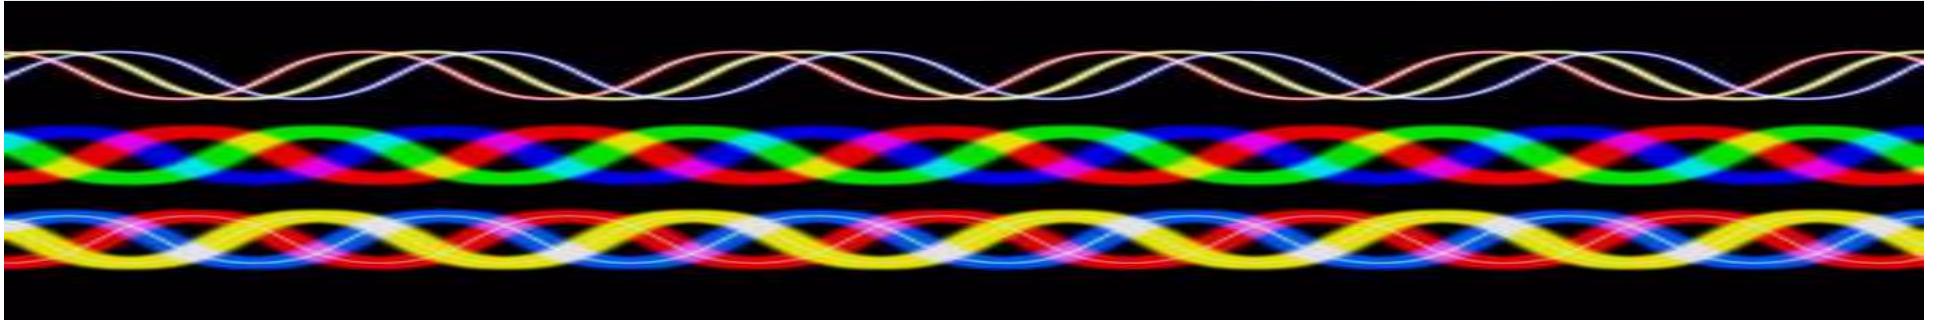

**HTE AMERICA**

## Helps 8 Main Systems:

- *Circulatory System*
- *Nervous System*
- *Digestive System*
- *Bowel System*
- *Immune System*
- *Skeletal System*
- *Weight System*
- *Skin System*

HTE AMERICA

# The Circulatory System

About 80% of the illnesses that exist in the human body comes from the circulatory system. A Cardiology Specialist from the United States (W. CASTELI) says:

*“Good maintenance of the heart and the circulatory systems can prolong life.”*

HTE AMERICA

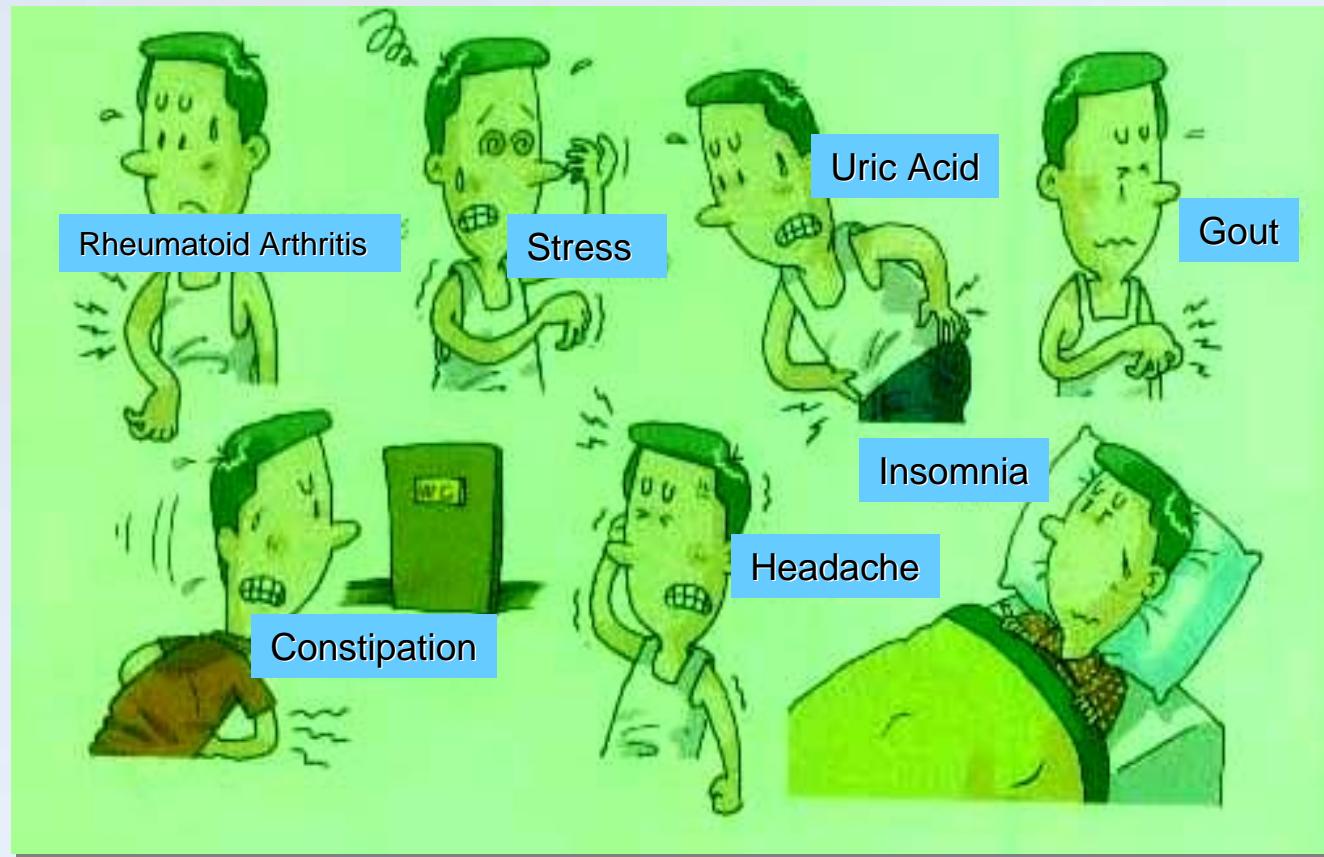

## How E-Power Works:

- 1. The body begins to react to Negative Potential and starts to remove acid sediments, impurities, triglycerides, and cholesterol that stick to the wall of blood vessels and the cells.**
  
- 2. Increases ATP energy and balances your Ph.**

HTE AMERICA

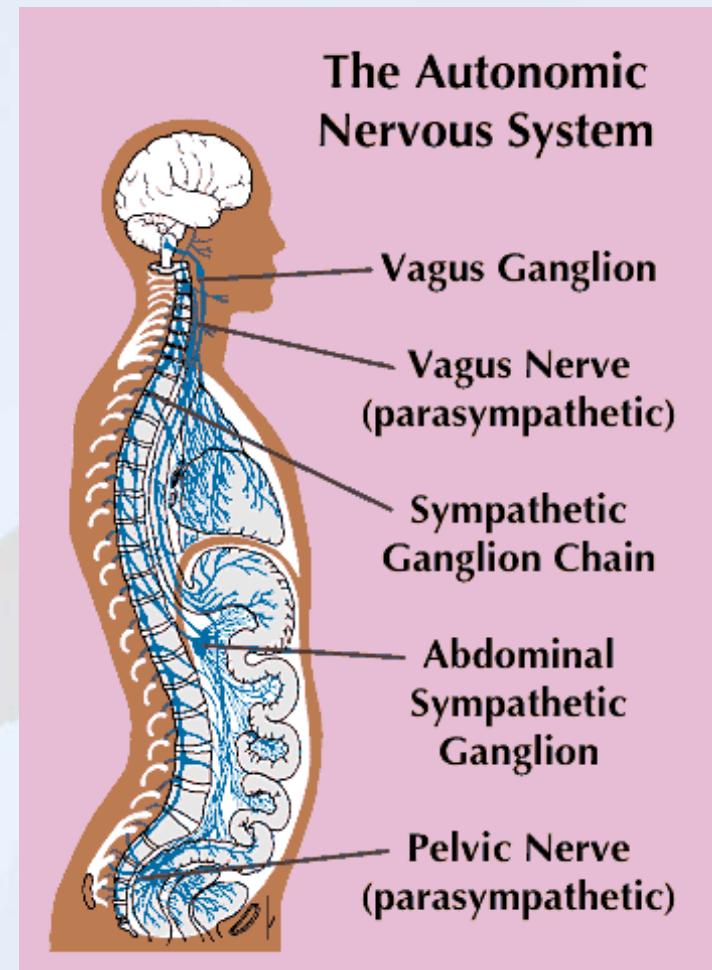

# The Nervous System

**For people  
with  
imbalances of  
the  
autonomous  
nervous  
system,  
headaches,  
insomnia,  
stress,  
constipation,  
and more.**  
**HTE AMERICA**

# How E-Power Works

- 1. Negative Potential Energy can increase the anions in the cellular membrane and improve blood vessel flow.**
- 2. The autonomous nervous system reaches equilibrium by absorbing anions, which in turn regulate the functions of blood vessels and internal secretion systems.**

# The Digestive System

Each of our cells contain, on average, 500 to 2,000 little "factories" called mitochondria that are responsible for supplying our energy needs. This creates ATP energy.

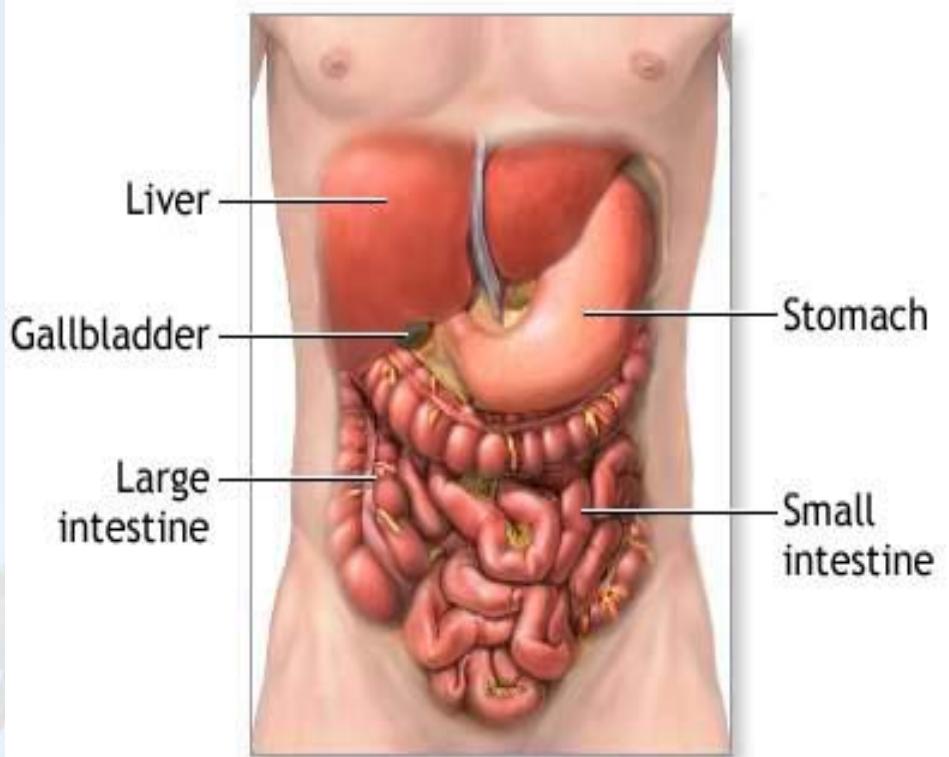

There are 1,000-2,000 Mitochondria (mtDNA) in a single liver cell, occupying roughly a fifth of its total volume.

The mitochondria are essential for turning the food we eat into energy in the form of the molecule ATP.

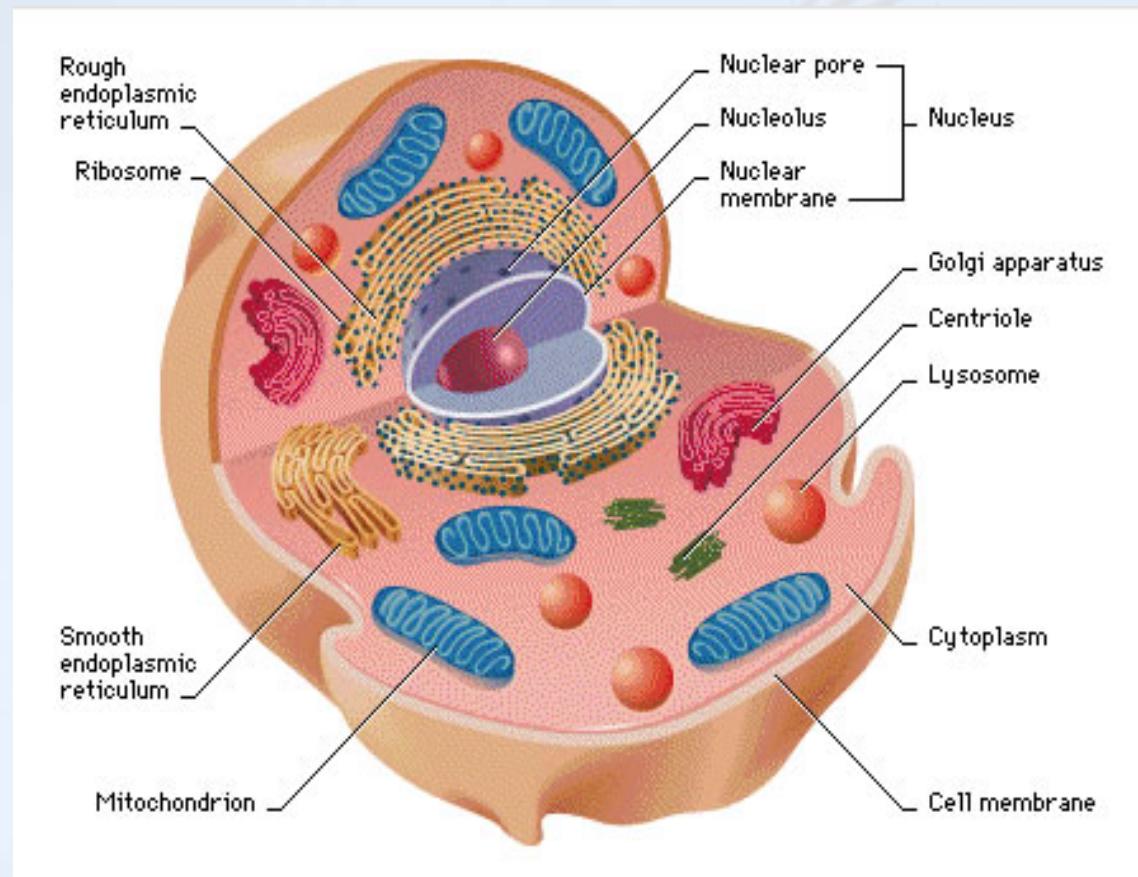

# The Digestive System

Mitochondrial diseases can affect many organ systems. These include gastrointestinal problems (constipation, acid reflux), ataxia (loss of balance and coordination) and learning disabilities.

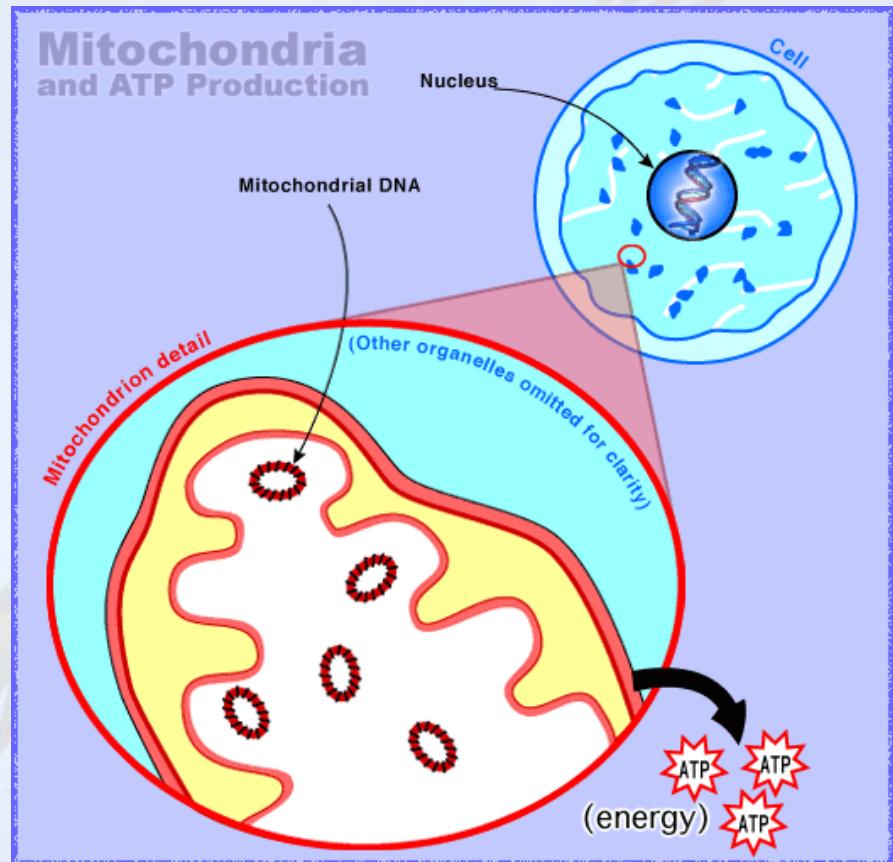

# How E-Power Works

**E-Power can increase the electric potential of cells where the Mitochondrion live. It can help with problems of gastric ulcers, stomach pains, and insomnia, and improve the overall health of individuals.**

# How E-Power Works

**Negative Potential Energy from E-Power stimulates cells and can reactivate the enzymes of ATP. It will also increase the ability to compose ATP in the membrane.**

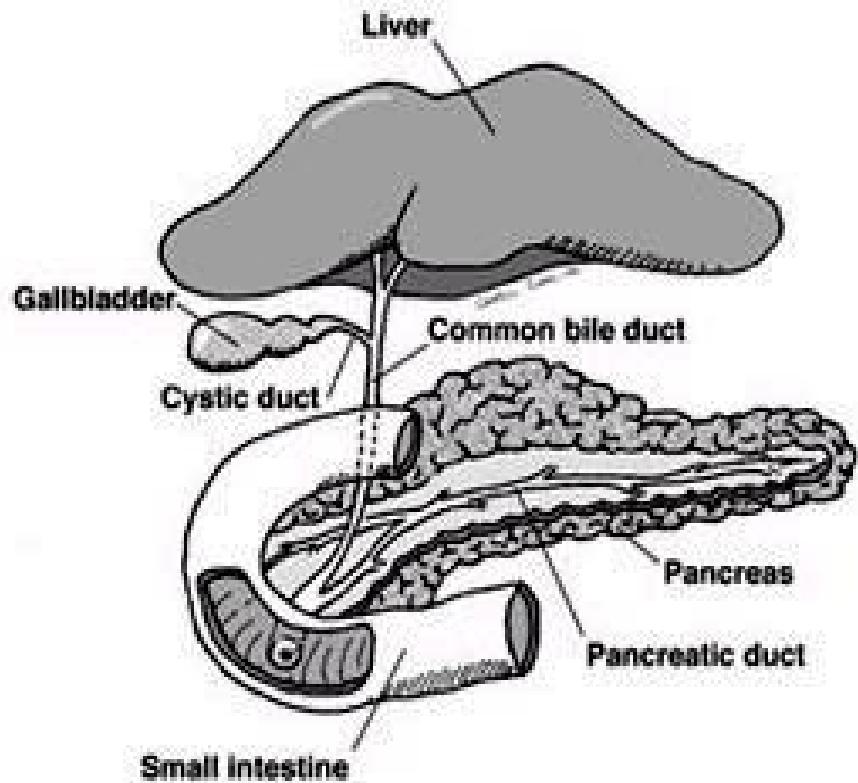

## How E-Power Works

Mitochondria also exist in muscular cells. It softens hard excrement, stimulates intestines to increase bowel movements, and eliminates constipation.

When E-Power reactivates enzymes in the intestines, it prevents the loss of nutrients your body needs.

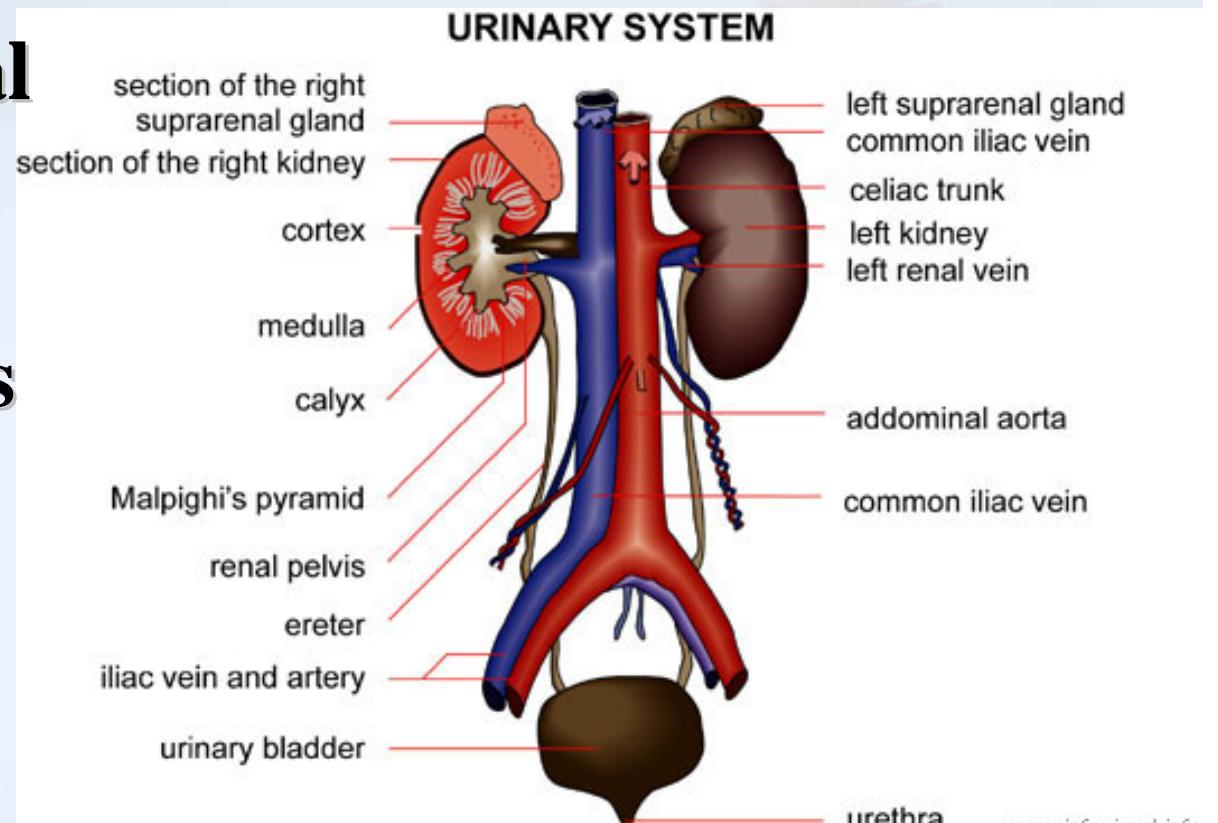

Improves Metabolism.

HTE AMERICA

# (Improved) Urinary System with Negative Potential

Negative potential starts the detoxification process, increases digestion, improves bowel and urine function.

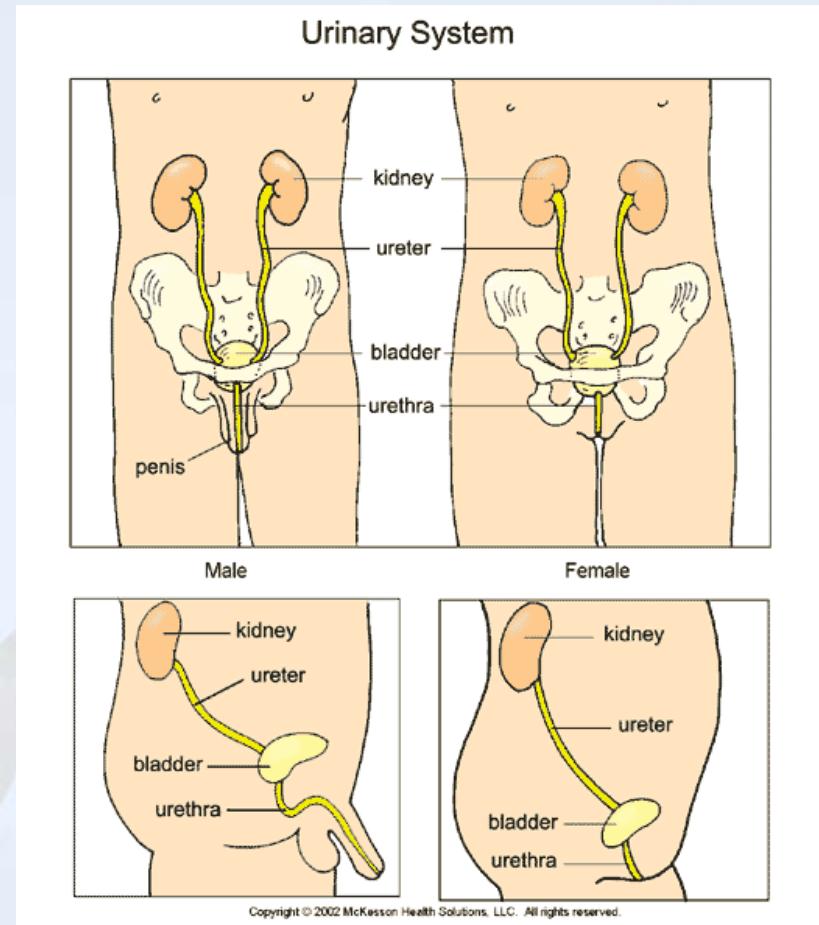

## How E-Power Works

**At first, due to the detoxification process of E-Power, the urine may look foamy and the stool may have a very strong smell.**

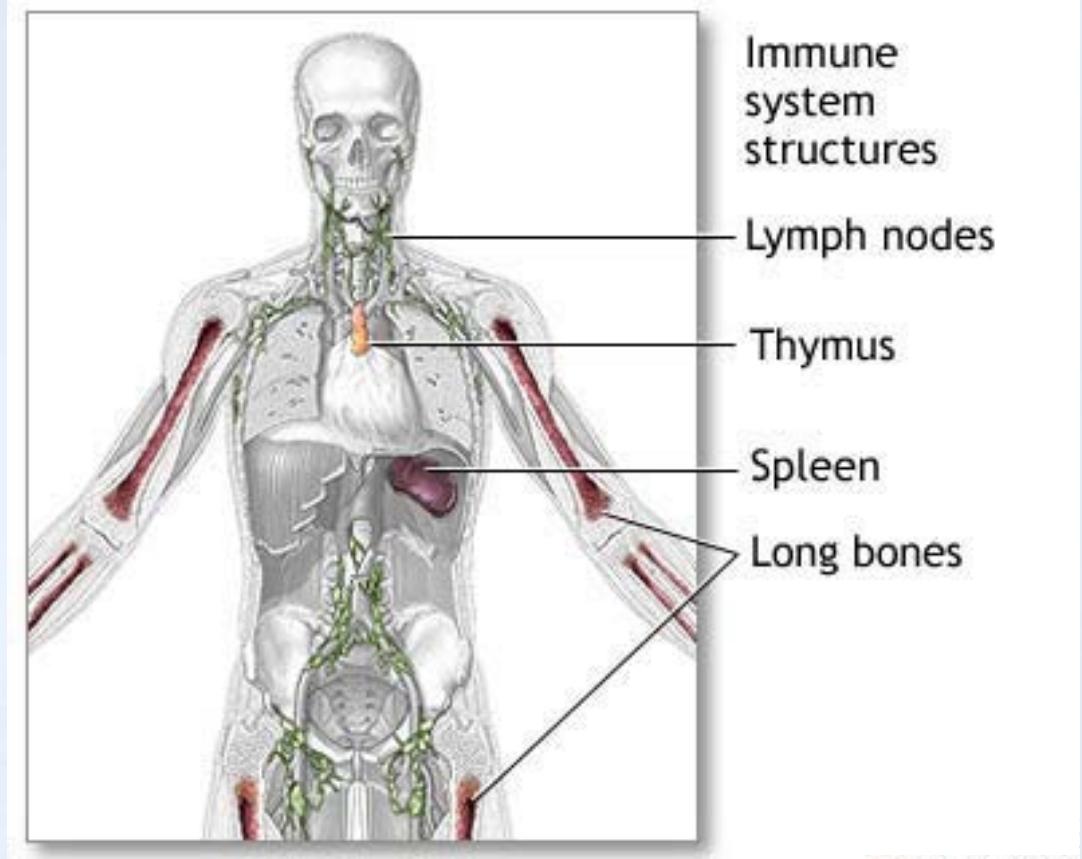

**The revival of enzymes helps diminish the workload of the kidneys and liver.**

HTE AMERICA

# The Immune System

**“When there's negative potential energy, the ‘C Proteins’ (which are located in the blood) activate. The C Proteins are in charge of the immune function & Reduce inflammation**

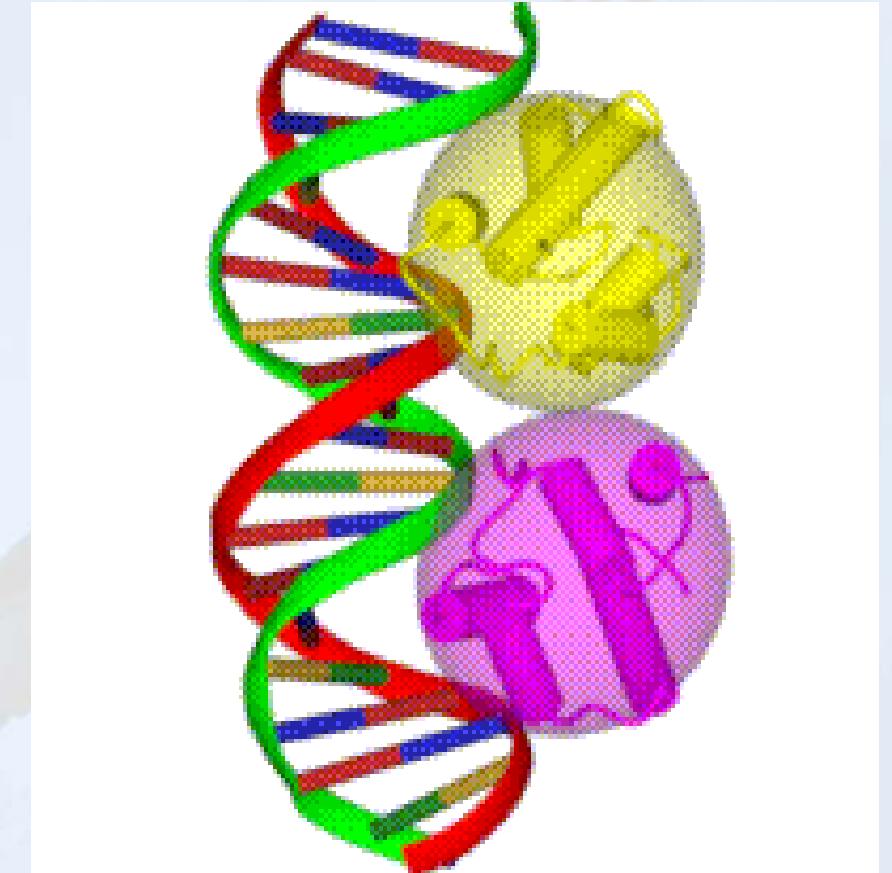

# The Immune System

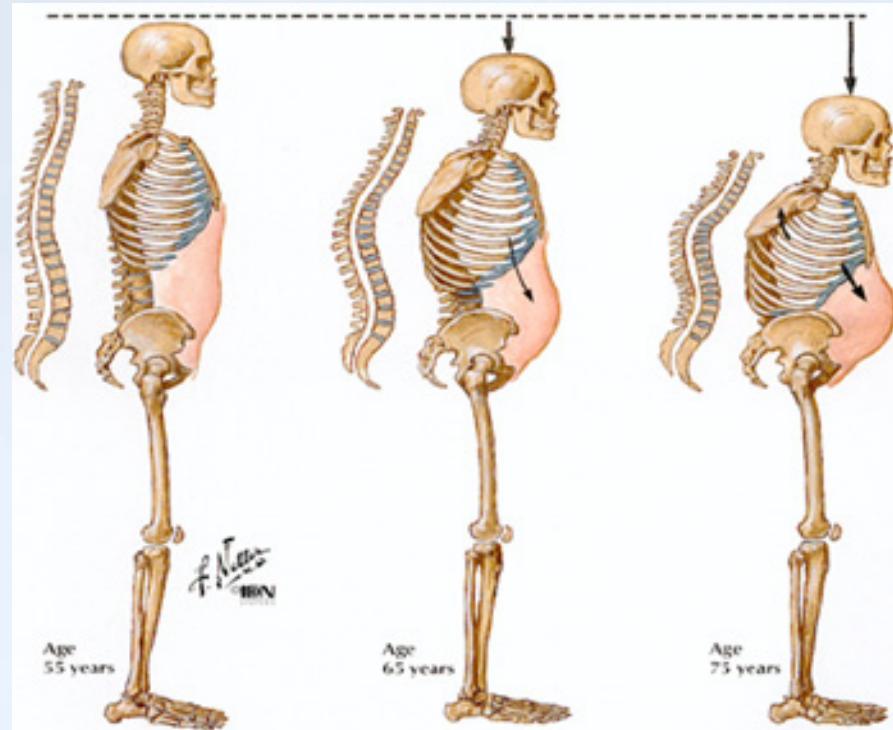

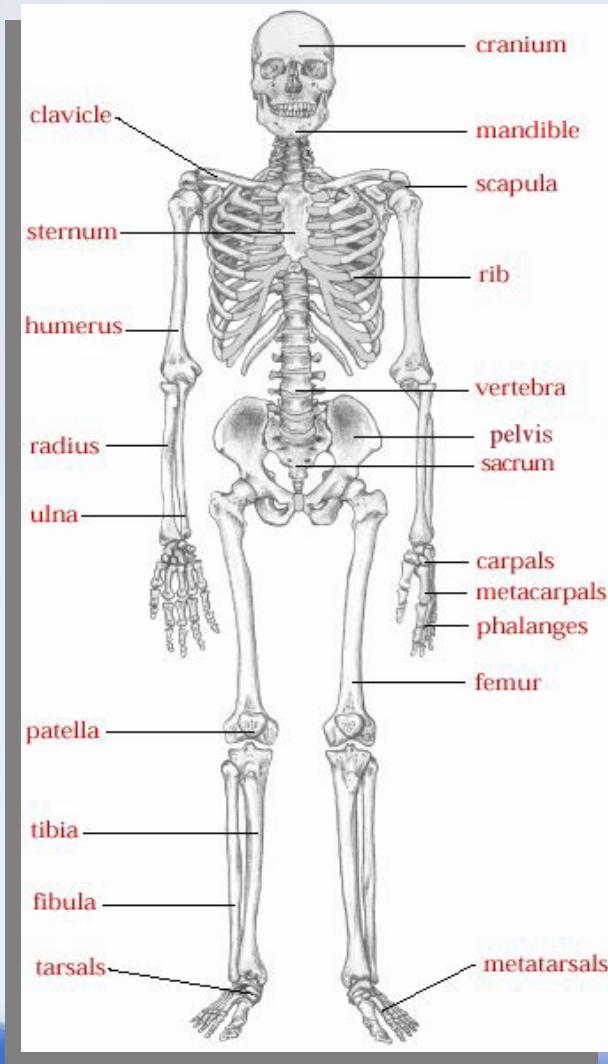

**...When the C Proteins have been reactivated, the immune system improves. It will accelerate cicatrisation (healing by forming scar tissue) and help improve immune system problems including stress, asthma, eczema, allergies, etc."**

*- Dr. Guang Teng Zhitian*

HTE AMERICA

# The Skeletal System

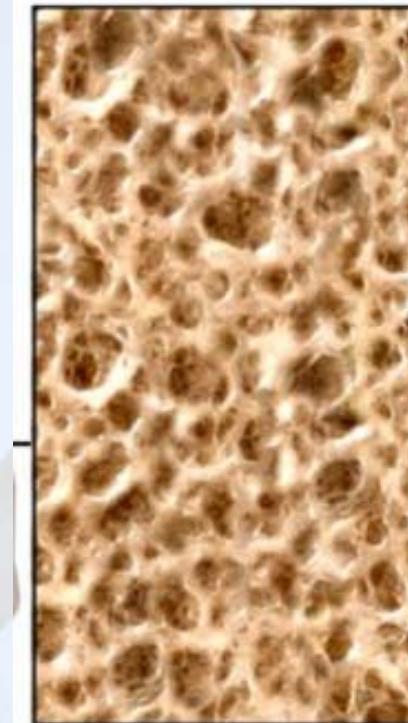

**For some people, the body does not absorb enough calcium or loses calcium ions, which can result in osteoporosis.**

# How E-Power Works

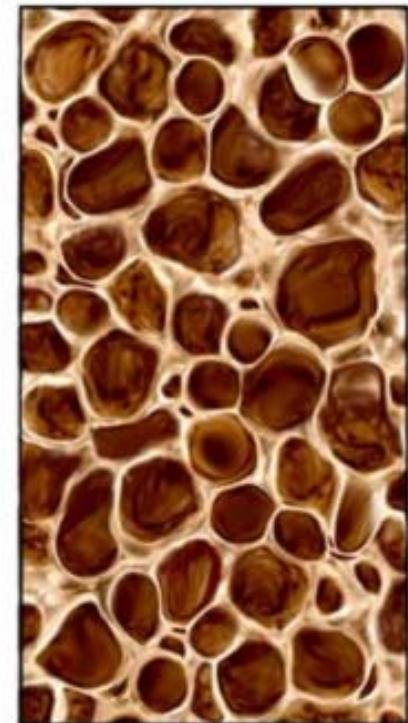

**The action of Negative Potential Energy increases the ability of cellular membranes to improve the exchange of ions.**

**This exchange balances the ions inside and outside of the cells, and it will reserve the calcium ions in the bones, helping to improve the problem of osteoporosis.**

# Weight Loss

**E-Power helps unblock channels of energy in the body and accelerates the process of fat burning.**

**It can strengthen the skin and firm the figure of the face, showing a reduction of fat under the chin.**

# Improve Your Skin

The electrical wave of high frequency massages cells 70,000 times per second to help the skin recover its elasticity. The Negative Potential helps balance the blood PH and accelerates the process of detoxification, making the skin look and feel healthy.

HTE AMERICA

## How it work -

*The supply of negative ions reduces negative affects of the skin. It improves skin metabolism and the ability to reserve oxygen. It eliminates the small lines of expression and age spots, while reducing stretch mark and lines from pregnancy.*
